Comments for Public Posting:	My name is Alexander Ferrer, I am a Phd Student at UCLA, and a member of UAW 4811, urging strong support of the motion for an after action report on the policing of the UCLA and USC campus protests. I witnessed the violent repression of students exercising their right to assembly on May 2nd firsthand after the abject failure of police to provide for their safety on the nights prior. I am appalled by the conduct of the officers involved and the negligence of UCLA campus leadership. Thank you for this important motion.

Comments for Public Posting: To Whom It May Concern, I am writing to express my strong opposition to item 24. As an American taxpayer, I believe it is fundamentally wrong to endorse actions that blatantly violate federal laws and university policies. The students who were arrested committed acts of violence against the LAPD, who should be praised for their diligent work at USC and UCLA. These individuals must be held accountable for their unlawful and immoral behavior. Furthermore, I am firmly against showing any leniency toward those who repeatedly commit heinous acts such as murder, rape, torture, mutilation, and abduction of innocent people, including babies, children, teens, and adults. Consequently, I urge you to vote NO on the resolution for a ceasefire in Gaza. Reports of food shortages are a direct consequence of Hamas's failure to distribute aid to civilians, not a result of the ongoing conflict. A ceasefire will not solve this issue; only the removal of Hamas will. Our shared humanity should not be based on biased reports. It is crucial to address these issues with a clear and unwavering stance. Sincerely, Allen Reynolds
