A Neighborhood Council Community Impact Statement (CIS) has been successfully submitted to your Commission or City Council. We provided information below about CISs and attached a copy of the CIS.

We encourage you to reach out to the Community Impact Statement Filer to acknowledge receipt and if this Community Impact Statement will be scheduled at a future meeting. Neighborhood Council board members are volunteers and it would be helpful if they received confirmation that you received their CIS.

The CIS process was enable by the to Los Angeles Administrative Code §Section 22.819. It provides that, "a Neighborhood Council may take a formal position on a matter by way of a Community Impact Statement (CIS) or written resolution." NCs representatives also testify before City Boards and Commissions on the item related to their CIS. If the Neighborhood Council chooses to do so, the Neighborhood Council representative must provide the Commission with a copy of the CIS or rResolution sufficiently in advance for review, possible inclusion on the agenda, and posting on the Commission's website.Any information you can provide related to your agenda setting schedule is helpful to share with the NC.

If the CIS or resolution pertains to a matter *listed on the Commission's agenda*, during the time the matter is heard, the designated Neighborhood Council representative should be given an opportunity to present the Neighborhood Council's formal position. We encourage becoming familiar with the City Councils rules on the subject. At the Chair's discretion, the Neighborhood Council representative may be asked to have a seat at the table (or equivalent for a virtual meeting) typically reserved for City staff and may provide the Neighborhood Council representative more time than allotted to members of the general public. They are also permitted up to five (5) minutes of time to address the legislative body. If the CIS or resolution pertains to a matter *not listed on the agenda*, the designated Neighborhood Council representative may speak during General Public Comments.

We share this information to assist you with the docketing neighborhood council items before your board/commission. If you have questions and/or concerns, please contact the Department of Neighborhood Empowerment at empowerla@lacity.org.

Summary: The Greater Wilshire Neighborhood Council (GWNC) supports the Motion (Blumenfield – Nazarian), Council File 26-0925. The Motion instructs LA Sanitation and Environment (LASAN) to report back with a Modern Organics Processing and Composting Master Plan that greatly increases local composting capacity within Los Angeles, uses the new permitting flexibility under SB 279 and AB 2346, and builds on LASAN's Healthy Soils plan. LASAN produces approximately 350,000 tons of compost and mulch each year from the City's green and food waste programs, yet only 25–30% of it is used locally. Much of the rest is trucked to farms more than 100 miles away in the Central Valley, and

Angelenos who sort their green-bin waste see little of the benefit in their own neighborhoods. The GWNC supports the Motion's call to meet the Mayor's Climate Action Plan Target 6B of 50% local compost and mulch use by 2030. It also supports the Motion's request for a CAO analysis comparing the cost of local composting with the current Direct Service Provider model. The GWNC sees a direct local need. Our Environmental & Sustainability Committee has identified City-owned street trees, tree wells, medians, and parkway planting sites in Greater Wilshire where the soil is compacted and bare. Compost and mulch improve soil health, help the ground absorb stormwater, and help trees survive heat waves. The Motion prioritizes distribution of finished compost to urban farms, community gardens, and City parks. The GWNC asks that the Master Plan also prioritize local use of City-generated compost and mulch around City street trees, medians, and parkways. The GWNC welcomes the Motion's instruction that LASAN seek input from Neighborhood Councils, and asks to be included in that outreach.
