MOTION

The Department of Water and Power (DWP) has crews that trim trees to provide clearance from electric power lines. The Bureau of Street Maintenance also has crews to trim trees as part of the City's on-going program to trim street trees. In some instances, DWP crews partially trim a tree and the Bureau must send its crew to complete the job. Using two crews to trim one tree is costly and a duplication of effort.

The responsibility for tree trimming rests with the Bureau of Street Maintenance. However, if a DWP crew is assigned to trim a tree it should do so completely and not simply trim a sufficient number of branches to provide clearance for power lines.

Action is needed by the City Council to request the DWP to expand its trim trimming efforts and remove the duplication of effort which currently exists between the two City agencies.

I THEREFORE MOVE that the Board of Commissioners of the Department of Water and Power (DWP) be requested to directly its crews to completely to trim a tree when they are engaged in power line clearance activities.
