Fiscal Impact Statement: The LAFKSC reports that adoption of an Ordinance and Resolution of Intention to Levy the Proposition K: L.A. for Kids Assessment for FY 2026-27 indicates the Council's intention to levy assessments totaling \$25.0 million to acquire and construct park and recreational and cultural facilities serving youth. The assessment can only be used for capital improvements, acquisition of land, Proposition K Program administration and maintenance of completed projects. The operating cost for Proposition K projects completed in future years will be funded by the annual operating budget adopted for City departments and with independent funding for projects operated by external entities. For FY 2026-27, \$5.7 million in General Fund reimbursements are anticipated for program administration (\$0.79 million) and maintenance (\$4.9 million) as identified in said LAFKSC report findings, Section 3 of said LAFKSC report.

The RAP reports an annual fiscal impact of \$3.2 million once active Proposition K projects, currently in various stages of development, become operational over future years. This includes \$1.2 million for maintenance and \$2.0 million for operations, as detailed in Attachment Nos. 3 and 4 of said LAFKSC report. The fiscal impact for completed projects will be partially offset by Proposition K maintenance funding. However, this annual offset will no longer be

available once the Proposition K program concludes on June 30, 2027. In FY 2025-26, the RAP will receive an award of \$4.3 million for current year maintenance awards, as detailed in Attachment 7 of said LAFKSC report.

Financial Policies Statement: The LAFKSC reports that the recommended actions in said report comply with the City's Financial Policies as one-time revenues are being used for one-time projects.

RESOLUTION

RULES, ELECTIONS, INTERGOVERNMENTAL RELATIONS

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations or policies proposed to or pending before a local, state or federal governmental body or agency must have first been adopted in the form of a Resolution by the City Council; and

WHEREAS, the Equal Access Rule originally issued over ten years ago (EAR) protects universal access to U.S Department of Housing and Urban Development (HUD) resources and originally passed in support of ensuring all family members access to the same shelter as their family and was later updated to address barriers faced by non-binary, transgender and gender nonconforming persons when accessing single-sex facilities; and

WHEREAS, EAR benefits all people seeking access to housing and homelessness services and has a vital impact for members of the transgender community seeking services and requires recipients of HUD's CPD funding to grant equal access to such facilities and services in accordance with an individual's gender identity; and

WHEREAS, on April 28th HUD published a Notice of Proposed Rulemaking (NPRM) "Equal Access to Housing in HUD Program Revisions" which seeks to remove regulatory provisions and rescind EAR which would allow for the Trump administration to discriminate against transgender people within HUD-assisted housing; and

WHEREAS, the reasoning by HUD for this proposed rule is not evidence-based and draws harmful conclusions that demonstrate anti-transgender rhetoric; and

WHEREAS, HUD has chosen not to enforce EAR since February 2025 and forces providers to turn away persons of the trans community who do not follow narrow definitions of gender and those who are facing homelessness have to risk their lives in shelters that are not safe for them and further isolate them from reaching adequate support; and

WHEREAS, one in three transgender people experience homelessness in their lives, LGBTQ+ youth make up 40% of the homeless youth population and transgender people report feeling unsafe in emergency shelters thus this data demands an intentional commitment to creating pathways to safe, decent and affordable housing that addresses inequities; and

NOW, THEREFORE, BE IT RESOLVED, that the City of Los Angeles hereby includes in its 2026-2027 Federal Legislative Program OPPOSITION to The Department of Housing and Urban Development (HUD) proposed rule FR 2026-08244, which would remove regulatory provisions and allow the Trump administration to discriminate against transgender people receiving housing assistance from HUD.

RESOLUTION

RULES, ELECTIONS, INTERGOVERNMENTAL RELATIONS

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations, or policies proposed to or pending before a local, state, or federal government body or agency must have first been adopted in the form of a Resolution by the City Council with the concurrence of the Mayor; and

WHEREAS, in 2016, the Los Angeles Department of Water and Power (LADWP) achieved the target set by California Senate Bill 32 to reduce greenhouse gas (GHG) emissions to 40 percent below the 1990 baseline level by 2030, meeting and exceeding this target 14 years ahead of the deadline; and

WHEREAS, by the end of 2022, LADWP's power portfolio was 52 percent carbon-free, and its GHG emissions level was estimated to be 7 million metric tons (MMT)—approximately 60 percent below its 1990 emissions baseline; and

WHEREAS, the California Air Resources Board (CARB) implements and enforces the Cap-and-Trade Program, a key element of California's strategy to eliminate greenhouse gas (GHG) emissions altogether by 2045, and allocates free allowances annually to each Electrical Distribution Utilities (EDU) to benefit their ratepayers, consistent with the original goals of the enabling legislation; and

WHEREAS, maintaining the regulatory certainty needed to achieve meaningful emissions reductions, without increasing Publicly Owned Utility rates or limiting customer offerings is essential to LADWP; the current CARB allowance allocation is used to directly assist ratepayers and help lower their energy bills; any reductions to the current allowance allocation would create budget uncertainty, increase utility costs, and thereby increase the rates on utility customers, the majority of whom reside in disadvantaged communities; and

WHEREAS, the number of allowances allocated by CARB to each EDU is based on its anticipated Cap-and-Trade Program compliance costs; any changes to the EDU, including a significant cut to the 10-year allowance allocation, would place extreme pressure on POUs to recover funding shortfalls by raising electrical rates and/or reducing program offerings, at the very time customers continue to struggle with utility bill debt that was exacerbated by the Covid pandemic; and

WHEREAS, according to CARB calculations, in 2021 alone, POUs spent \$159 million on the above investments, and the use of allocated allowances for compliance has saved POU customers \$295 million; maintaining current allowance numbers will help keep electricity affordable for customers, while ensuring that POUs like LADWP can continue making meaningful progress towards emission reductions;

NOW, THEREFORE, BE IT RESOLVED, that by adoption of this Resolution, the City of Los Angeles hereby includes in its 2026-2027 State Legislative and Federal Legislative Programs SUPPORT for any legislation or regulation that directs the California Air Resources Board to observe previously allocated free allowances to LADWP through 2030 and to preserve the current valuation of the Renewable Portfolio Standard Adjustment Credit.

MOTION

AD HOC ULA

RULES, ELECTIONS, INTERGOVERNMENTAL RELATIONS

The United to House LA (ULA) ballot measure was adopted by Los Angeles voters in November 2022. The measure established an additional transfer tax on high-value property sales in the City of Los Angeles, which created revenues for affordable housing and homelessness prevention programs.

The City has collected more than \$1 billion in revenue since the collection of the tax began in April 2023. However, experts, stakeholders and studies have provided feedback that Measure ULA may not be reaching its full potential due to skepticism from lenders, impacts to property transaction activity, and unforeseen technical barriers not fully considered in its inception.

At a time when ULA and similar measures remain under threat, the City has the unique opportunity to consider changes to Measure ULA to further the goal of building affordable housing and generating revenue for programs that stabilize existing affordable housing and provide assistance to tenants to stay housed.

I THEREFORE MOVE the City Council request the City Attorney to prepare and present ballot measure language and the necessary ballot resolutions and ordinances to place the measure on the November 3, 2026 ballot, amending Measure ULA with the following changes:

1. For multifamily or mixed use properties, amend the ULA transfer tax rate to a reduced percentage. CAO is instructed to report back with options for a reduced rate between 2-3.5%.
 - a. Explore subjecting the following project categories to the proposed caps:
 - i. single family, not-for-profit medical, educational, and/or arts facilities
2. Remove barriers to revenue bonding, for maximum flexibility to build expeditiously.
3. Expand the public reporting and performance measures to include:
 - a. Quarterly updates to Council Districts of expenditures, persons served, and program outcomes by ULA program, and
 - b. Regular updates from the ULA Citizen Oversight Committee to the City Council
4. Expand the use of ULA funds to provide greater flexibility to respond to the City's immediate housing needs in coordination with local Council Districts, including street homelessness response and interventions.
