ECONOMIC DEVELOPMENT AND JOBS and BUDGET AND FINANCE COMMITTEES REPORT and AD HOC COMMITTEE ON FILM, ENTERTAINMENT AND CREATIVE INDUSTRY REPORT relative to waiving Los Angeles Fire Department (LAFD) “spot check” fees, requesting a report on LAFD’s ability to recover associated costs; a report on a strategy for proactive enforcement and a public education initiative regarding Los Angeles Municipal Code (LAMC) Section 41.20 and lawful filming.

A. ECONOMIC DEVELOPMENT AND JOBS and BUDGET AND FINANCE COMMITTEES

Recommendations for Council action, as initiated by Motion (Nazarian - Lee):

1. INSTRUCT the LAFD to waive “spot check” fees for the following types of productions:
 - a. Productions assigned a Fire Safety Officer (FSO); or,
 - b. Productions who pay the fee but are never visited by a Fire Inspector
2. INSTRUCT the LAFD, in coordination with the City Administrative Officer (CAO), to report to Council within 60 days on the fiscal impact, including the ability of the LAFD to recover costs, of waiving “spot check” fees for the following types of productions:
 - a. Productions assigned an FSO; or,
 - b. Productions who pay the fee but are never visited by a Fire Inspector.
3. REQUEST the Board of Public Works (BPW), with assistance from the Los Angeles Police Department (LAPD) and City Attorney, and in consultation with FilmLA, to report to Council within 60 days on recommendations

for a strategy for proactive enforcement and a public education initiative regarding LAMC Section 41.20, specifically targeting communities impacted by filming and production activities.

4. REQUEST the BPW, with assistance from the LAPD and City Attorney, and in consultation with FilmLA, to develop and implement a community education plan regarding lawful filming, including:
 - a. Clear notice that “inconvenience payments” are not required for permitted filming.
 - b. Information on how residents can report harassment, price-gouging, or unlawful disruption.
 - c. Updated language on all FilmLA notices and the City’s filming website.
5. INSTRUCT the LAPD, in coordination with FilmLA and the BPW Film Liaison, to establish a citywide Motion Picture Officer (MPO) staffing matrix to ensure consistent deployment standards across all patrol divisions, and to report to Council on eliminating unnecessary staffing minimums unless justified by a documented safety concern.
6. INSTRUCT the LAPD to report to Council within 60 days on current procedures for MPO firearm licensing and recommendations for ensuring that every MPO is up to date on all requisite licensing requirements to do with firearms.

B. AD HOC COMMITTEE ON FILM, ENTERTAINMENT, AND CREATIVE INDUSTRY

Recommendations for Council action, as initiated by Motion (Nazarian – Lee):

1. CONCUR with Recommendation Nos. 1-6 of the Economic Development and Jobs and Budget and Finance Committees, as detailed above in Section A.

2. INSTRUCT the LAFD to waive and/or significantly reduce "spot check" fees for the following types of productions:
 - a. Productions assigned an FSO
 - b. Productions who pay the fee but are never visited by a Fire Inspector.
3. REQUEST the City Attorney, with the assistance of the LAFD, to prepare and present any Ordinances, if necessary, to effectuate a change in the name of the "spot check" fee to another label that reflects the administrative nature of the fee.

Fiscal Impact Statement: Neither the CAO nor the Chief Legislative Analyst has completed a financial analysis of this report.

RESOLUTION

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations or policies proposed to or pending before a local, state or federal governmental body or agency must have first been adopted in the form of a Resolution by the City Council; and

WHEREAS, pursuant to Senate Bill 1249 and as part of the California 2030 initiative, the State of California is updating the Intrastate Funding Formula (IFF) to determine how federal and state funding is allocated to Planning Service Areas to support Area Agencies on Aging and their delivery of programs and services to older adults, people with disabilities, caregivers, and their families; and

WHEREAS, on June 15, 2026, the Mayor and Council adopted a Resolution to oppose the California Department of Aging's proposed IFF included in the State's 2026-27 May Revision Budget Trailer Bill Language that would significantly reduce regional funding for older adult and caregiver programs and services; and

WHEREAS, on August 17, 2026, the California Department of Aging released updated IFF guidance that will reduce the City's funding for older adult and caregiver services by 15 percent or approximately \$3.03 million, and the County's funding by \$4.6 million, resulting in a combined regional funding loss of over \$7.6 million; and

WHEREAS, the proposed IFF would reduce funding for the City's older adult nutrition program by \$2.3 million or approximately 180,000 meals annually, and jeopardize meal assistance for more than 2,200 older adults; and

WHEREAS, the proposed IFF would also reduce funding for case management and social work services by more than 6,000 hours annually, impacting approximately 470 vulnerable older adults who risk losing access to ongoing care monitoring, needs assessments, service coordination, and other critical supports; and

WHEREAS, proposed funding reductions for personal care, homemaker, and chore services would result in the loss of nearly 3,000 hours of direct assistance and impact more than 160 older adults who rely on these supportive services to maintain their independence, safely remain in their homes, and prevent or delay the need for more intensive and costly levels of care; and

WHEREAS, the proposed IFF would cut approximately 400 hours of professional in-home respite care and more than 540 caregiver assessments and case management sessions, reducing critical support for families caring for homebound and functionally impaired older adults; and

WHEREAS, the proposed IFF will be implemented in 2029, when it is projected that nearly 25 percent of the City's population will be at least 60 years old, and there will already be an increased demand for nutrition, case management, caregiver support, and other essential aging services; and

SEP 18 2026

WHEREAS, the Community Investment Department's Office of Aging Services, the City's designated Area Agency on Aging and administrator of older adult and caregiver programs and services, will submit a letter to the California Department of Aging by the public comment deadline on September 25, 2026, to oppose the proposed IFF and advocate for greater equity in the distribution of aging-services funding, consistent with the City's adopted Resolution on June 15, 2026; and

WHEREAS, the City of Los Angeles seeks to ensure the implementation of a revised funding formula that will not destabilize existing aging-service networks, disproportionately impact high-need Planning Service Areas, or result in significant reductions to essential services for older adults, people with disabilities, and caregivers;

NOW, THEREFORE, BE IT RESOLVED, that by adoption of this Resolution, the City of Los Angeles hereby includes in its 2025-26 State Legislative Program, OPPOSITION to the California Department of Aging's proposed Intrastate Funding Formula; and

BE IT FURTHER RESOLVED, that the City of Los Angeles URGES the California Department of Aging to revise the currently proposed funding methodology to effectively address the factors influencing service need within each Planning Service Area; and establish baseline funding levels, a five-year transition period for implementation, and funding standards for administrative costs to reflect population size, contract monitoring complexity, and linguistic access need.

MOTION

TO CITY CLERK FOR PLACEMENT ON NEXT
REGULAR COUNCIL AGENDA TO BE POSTED

#55

On Saturday, July 4, 2026, shortly after 11:00 p.m., 37-year-old Eric Washington was at a community gathering at the New Wilmington Arms Apartments at the 700 block of West Laurel Street in Compton, when he was fatally shot. Eric Washington was known as a regional public servant and devoted community leader, serving in multiple roles for the Housing Authority of the City of Los Angeles (HACLA), helping Los Angeles residents find public housing opportunities, and bringing youth together through HACLA's World Cup Youth Tournament, among other notable public service roles.

Law enforcement has been unable to identify the suspect or suspects responsible for Eric Washington's murder and a reward may compel members of the public to provide information on the identity of the person or persons responsible for this crime. The person or persons responsible for this crime represent an ongoing threat to the safety of the people of Los Angeles; therefore, it is appropriate for the City of Los Angeles to offer a reward for information leading to the identification, apprehension and conviction of the person or persons responsible for the death of Eric Washington.

I THEREFORE MOVE that by adoption of this Motion, the City Council provide an offer of reward for information leading to the identification, apprehension, and conviction of the person or persons responsible for the death of Eric Washington on July 4, 2026, and in support thereof, make the following findings pursuant to Division 19, Chapter 12, Article 1 of the Los Angeles Administrative Code:

1. That the death of Eric Washington was caused by the willful misconduct of one or more persons.
2. That this offer of reward is consistent with and taken for the immediate protection of the public peace, health and safety of local residents, as well as visitors to the City, and is consistent with the need to arrest and convict the person or persons who, because of not being apprehended, could by their actions further terrorize and present a continuing and immediate menace to the rights of persons in the City.
3. That what happened to the victim is an especially disturbing crime and therefore, as a matter of public policy, the City hereby offers a reward as an added inducement for persons to come forward with information leading to the identification, apprehension, and conviction of the person or persons responsible for the death of Eric Washington.
4. That the sum of \$50,000 shall be the aggregate maximum sum of any payment or payments of a City reward in this instance.
5. That the offer of reward shall be in effect for six months from the date of the advertisement of the reward by the City Clerk.

I FURTHER MOVE that any payment or payments of a City reward in this instance follow action by the Los Angeles County Board of Supervisors to pay their offer of reward, per the Sheriff's Department recommendation, inasmuch as this incident occurred in a neighboring jurisdiction and its investigation is being conducted by the Sheriff's Department.

I FURTHER MOVE that the City Clerk be directed to cause notices and/or advertisements to be duly published according to the requirements of Division 19, Chapter 12, Article 1 of the Los Angeles Administrative Code, and to thereby cause the offer of reward to become effective.

MOTION

The Above Ground Facilities Ordinance (AGF) was established in 2003 to regulate the placement, size, and landscaping of utility and telecommunication equipment in the public rights-of-way. In 2012, the AGF ordinance was updated to include new parameters for the regulation of cell towers and antennas.

The California Public Utilities Commission (CPUC) is the state agency tasked with protecting consumers, the environment, and ensuring access to safe and reliable utility infrastructure and services. As such, implementation of state bills and development of regulatory policies and procedures related to utility safety are within their purview. Federal agencies, including the Pipeline and Hazardous Materials Safety Administration (PHMSA), also establish mandatory safety standards for natural gas pipelines under 49 CFR CFR Parts 191, 192, 193, and 199, which are enforced in California through CPUC oversight. Since the last update to the AGF Ordinance, the state and federal government have passed several safety initiatives aimed at disaster planning and resilience, including mandates and regulatory programs targeted at natural gas infrastructure.

The city should ensure permitting for these types of safety improvements are as streamlined as possible to support compliance and timely implementation for the good of the public.

I THEREFORE MOVE that the City Attorney, with the assistance of the Bureau of Engineering, be instructed to amend LAMC 62.08 - Specifications and Procedures for Above Ground Facilities (AGF) Installations in the Public Right-of-Way, Section IX (Exemptions from the AGFSP), Subsection D (Other) to read as follows:

D. Other: Temporary water service AGFs, sampling taps, dissipaters, water control appurtenances associated with water regulator stations, water flow meters, and water valves, and vent stacks related to maintenance holes and vaults, **as well as State and Federally Regulated Gas Safety Infrastructure**, shall not be subject to the AGFSP, except for the pedestrian passage retrofit requirements in Section X.B. These facilities may also be subject to other BOE permit requirements.

I FURTHER MOVE that the Council instruct the City Attorney, with the assistance of BOE to add a definition to LAMC 62.08 - Specifications and Procedures for Above Ground Facilities Installations in the Public-Rights-Of-Way, to read as follows:

STATE AND FEDERALLY REGULATED GAS SAFETY INFRASTRUCTURE: Equipment installed above surrounding grade in the public rights-of-way that:

(a) are part of, directly integral, or functionally necessary to, the operation, safety, integrity, monitoring, or regulatory compliance of, natural gas distribution, transmission, or storage system operated by a public utility company pursuant to a gas system franchise granted by the City (Grantee);

SEP 18 2026

SEP 18 2026

(b) are mandated, authorized, approved, or required to be installed in furtherance of compliance with applicable federal or state law including, but not limited to, regulations, mandates, general orders, decisions, approvals or directives of the California Public Utilities Commission (CPUC), the California State Fire Marshal (CSFM), or the Pipeline and Hazardous Materials Safety Administration (PHMSA), applicable to the Grantee; and

(c) serves one or more of the following safety, operational, regulatory or compliance functions, including but not limited to:

- (i) Real-time or remote monitoring of gas system pressure, flow, temperature, or operational status through Supervisory Control and Data Acquisition (SCADA) systems, Remote Terminal Units (RTU), field sensors, or equivalent telemetry or communications infrastructure;
- (ii) Automatic or remote-control shutoff, isolation, or pressure regulation of gas flow within the distribution, transmission, or storage system, including valve actuators, linebreak automation panels, and associated control, communication, and power supply equipment;
- (iii) Cathodic protection of metallic pipelines and associated infrastructure against electrochemical corrosion, including test stations, rectifiers, associated power supply systems, junction boxes and associated monitoring and measuring equipment; or
- (iv) Any other gas pipeline safety function specifically required by CPUC general order or written directive and designated as Gas Safety Infrastructure by the Board of Public Works.

I FURTHER MOVE that the Department of Public Works be authorized to make any corrections, clarifications or revisions to the permitting process in order to effectuate the intent of this Motion, in response to any subsequent changes in federal or state laws and regulations.

MOTION

The City Council has previously taken action through Council Files 25-0364 and 26-0149, concerning the development of a Goods Movement Training Campus (GMTC), originally envisioned as a joint effort between the Ports of Los Angeles (POLA) and Long Beach (POLB) to create a world-class workforce training program for the goods movement industry.

Since those actions, POLA has continued to evaluate options for the project, including a potential shift from the previously proposed Wilmington location to the former U.S. Customs building on Terminal Island. Additionally, questions have arisen regarding the current status of POLB's participation following POLB's February 2026 notice of withdrawal, as referenced in Council File 26-0149, and whether the original agreement between the two Ports remains in effect. Given the \$110 million in State funding awarded for the project, the expiration of the grant in 2026, and the potential impacts on Harbor communities and workers, the City Council should receive a clear update on the project's status, funding, and path forward.

I THEREFORE MOVE that the City Council request the Executive Director of the Port of Los Angeles (POLA) to provide a written report on the current status of the Goods Movement Training Campus (GMTC), including:

1. The current status of POLB's participation in the GMTC, including whether the original agreement between POLA and POLB remains in effect and, if not, whether the agreement was terminated or modified;
2. The current proposal for the GMTC, including the proposed location, scope, timeline, cost, funding plan, and the reasons for moving away from the previously proposed Wilmington location;
3. The status of the State's \$110 million grant, including the amount received and expended to date, remaining funds, any extensions or modifications to the grant, and the status of required progress reports;
4. A summary of all expenditures and contracts to date, including the AECOM design contract, current staffing and outside-service costs, and any other commitments against the project funding; and
5. The anticipated next steps, approvals, and timeline for advancing the project, including coordination with labor, industry, community stakeholders, POLB, and other governmental partners.

In most of California, multi-family housing developers overwhelmingly choose to build rental apartments instead of condominiums, for-sale townhomes, rowhomes and other housing typologies. This is a serious issue as condominiums historically provided accessible pathways to homeownership for first-time buyers, working- and middle-income residents priced out of the single family home market, or those who prefer more densely populated living styles.

The steep decline in for-sale condominium development exists because rental housing is significantly cheaper, faster, and less risky to build due to structural market advantages. For example, rental developments pay roughly 300% to 400% less in commercial general liability insurance premiums (\$4–\$6 per \$1,000 of construction costs for rentals versus \$16–\$20 per \$1,000 for condos).¹

Additionally, and under the City's purview, are standing impact fees, such as the Affordable Housing Linkage Fee, Quimby/Park Fees, and Subdivision Mapping Fees, exacerbate this cost gap by adding tens of thousands of dollars per unit in upfront expenses, further disincentivizing for-sale housing production. A 2021 report by the UCLA Lewis Center for Regional Policy Studies confirms that collecting high municipal impact fees early in the development process drives up total financing costs and restricts housing production.²

The City should explore its authority to establish a fee deferral program that changes when impact fees (such as park fees, linkage fees, and infrastructure fees) are collected. Instead of requiring upfront payment at building permit issuance when financing costs are highest, the City can allow developers to pay at a later date, such as at certificate of occupancy.

I THEREFORE MOVE that the City Administrative Officer, with assistance from the Department of City Planning, Department of Recreation and Parks, Los Angeles Housing Department, Department of Building and Safety, Bureau of Engineering, Office of Finance, and other relevant departments, to report back within 90 days on City fees and exactions applicable to small-scale for-sale housing, including park fees, the Affordable Housing Linkage Fee, subdivision and mapping fees, and other applicable development fees, and identify options to establish exemptions, reductions, credits, deferrals, proportional fee structures, or other modifications for qualifying small-scale ownership projects.

I FURTHER MOVE that the report should specifically evaluate fiscal impacts of any recommendation. City fees that result in a housing development being assessed additional charges solely because the homes are subdivided or established as condominiums for individual ownership, and recommend fiscally responsible changes that would avoid discouraging ownership housing relative to otherwise comparable rental development.

I FURTHER MOVE that the City Administrative Officer, with assistance from the Office of Finance and other relevant departments, evaluate the potential fiscal and economic benefits of facilitating additional individually owned homes, including the long-term property-tax implications of converting a single property into multiple separately transferable lots or condominium units, as well as other potential economic benefits.
