Items for which Public Hearings Have Not Been Held - (10 Votes Required for Consideration)

(5) **24-1184-S1**

COMMUNICATION FROM THE CITY ADMINISTRATIVE OFFICER (CAO) relative to proposed Second Amended and Restated Professional Services Agreement (Contract No. C-139210) with PureEHS Buyer LLC, formerly known as UL Verification Services, Inc.

Recommendation for Council action:

APPROVE and AUTHORIZE the General Manager, Personnel Department, or designee, to execute the Second Amended and Restated Professional Services Agreement (Contract No. C-139210) with PureEHS Buyer LLC, formerly known as UL Verification Services, Inc. to:

- a. Increase the expenditure authority by \$412,506 resulting in a not to exceed compensation totaling \$1,344,734.
- b. Extend the term by two years resulting in a term effective September 30, 2021 through September 29, 2028.

- c. Update the City's standard contracting provisions to include the "Standard Provisions for City Contracts (Rev.1/25)[v.2]," subject to approval as to form by the City Attorney.

Fiscal Impact Statement: The CAO reports that funding for the Agreement is available in the 2026-27 Budget within the Personnel Department's Contractual Services Account within the line item titled "Occupational Health Management software." There is no additional impact to the General Fund.

Financial Policies Statement: The CAO reports that as budgeted funds are available to support the Agreement and expenditures, and future year expenditures are limited to the appropriation of funds, the recommendation of the August 21, 2026 CAO report, attached to the Council File, complies with the City's Financial Policies.

Community Impact Statement: None submitted

TIME LIMIT FILE - NOVEMBER 3, 2026

(LAST DAY FOR COUNCIL ACTION - NOVEMBER 3, 2026)

(Personnel and Hiring Committee waived consideration of the above matter.)

Adopted Item

MOTION

On January 9, 2024 the City of Los Angeles contracted with West Valley Homes Yes, Inc. (WVHY) to support the recreational vehicles (RV) Outreach to Home Program in Council District 7.

The program aims to reduce the number of uninhabitable recreational vehicles on City streets through trauma informed, service focused outreach. As of October 2026 we have transitioned 416 individuals into housing and removed 201 RVs.

WVHY services also include providing food, hygiene kits, referrals, assistance obtaining vehicle documentation, and vehicle repairs to help residents bring their RVs or cars into saleable condition. The contract requires the nonprofit to document expenditures, maintain separate financial records, submit payment requests and a final closeout statement, and return any unspent or unapproved funds to the City.

I THEREFORE MOVE that the City Clerk be directed and authorized to extend the term of City Contract C-144852 with West Valley Homes for continued support for its Recreational Vehicles (RV) Outreach to Home Program, and services in Council District 7 for an extended period from November 1, 2023 to November 1, 2027.

OCT 09 2026

MOTION

The Los Angeles Tourism & Convention Board is coordinating a street banner program to celebrate DineLA's Winter 2027 event which runs January 15, 2027 to January 29, 2027. The City of Los Angeles is excited that DineLA continues to drive social, cultural and economic impact for the Los Angeles region by bringing people to restaurants across the city. The event encourages people to try new dining venues and cuisines, provides jobs, and promotes community engagement.

I THEREFORE MOVE that the City Council, in accordance with Los Angeles Municipal Code (LAMC) Section 62.132, approve the Street Banner program being coordinated by the Los Angeles Tourism & Convention Board as a City of Los Angeles Non-Event Street Banner Program for the period of December 30, 2026 to January 29, 2027.

I FURTHER MOVE that the City Council approve the content of the attached street banner designs.

MOTION

BUDGET & FINANCE

The City should explore responsible paths to improve animal welfare on Skid Row, and that starts with investing in the staff to carry out the work already in place.

I THEREFORE MOVE that the City Council instruct the Department of Animal Services to include a request for two additional positions dedicated to Skid Row in their FY 2027-28 proposed budget proposal as follows:

- One Animal Control Officer to extend enforcement and field coverage to more days of the week, expand the Department's reach in the community, and improve outreach alongside City departments and community organizations; and
- One Management Analyst to coordinate community partners, outreach, and clinic schedules, manage donations and grants, track service and case data, and serve as the point of contact for Council District 14 stakeholders.

I FURTHER MOVE that the City Council instruct the City Administrative Officer, with the assistance of the Department of Animal Services, to report within 30 days on the associated costs of these positions, use of these classifications, and the feasibility of authorizing these positions through resolution authority in the current fiscal year.

MOTION HOMELESSNESS AND HEALTH

Operation Healthy Streets (OHS) is a program within the Los Angeles Bureau of Sanitation (LASAN) that has been in operation since 2013. As a predecessor to CARE/CARE+, its purpose is to clean the City's streets and sidewalks to help maintain basic sanitation and health standards. However, inconsistencies between these programs have impacted local businesses, service providers and the disproportionate number of people experiencing homelessness in Skid Row.

In Skid Row, where the highest concentration of people experiencing homelessness in the City of Los Angeles exists, LASAN has historically used permanent metal signage to notify residents of OHS cleanups. These signs display maps covering as many as ten blocks and indicate that operations may occur within the designated area between 7:00 a.m. and 3:00 p.m. on a specified day. However, operations may take place on one or two of the blocks, and specific locations and timing may not be clear to residents in advance.

Clear and timely notification of OHS operations is essential to minimizing disruptions to residents, local businesses, and Metro Bus service. Advance notice of specific location and timing of cleanups help outreach workers maintain contact with clients and connect them to services and housing. It also allows residents experiencing homelessness to prepare and safeguard personal belongings including items essential to their health and well being.

I THEREFORE MOVE that City Council instruct the Bureau of Sanitation (LASAN) to report back within 30 days on its policy and procedures for Operation Healthy Streets (OHS) operation notifications and recommendations on how to enhance the notification process overall. This report should include:

- A description of whether a formal notification system exists for OHS in Skid Row and if so, the methods, advance notice timelines, and staffing provided.
- An assessment of the current OHS map for Skid Row, including its accuracy, clarity and how it is distributed to residents in the area.
- An assessment of inconsistencies in notification practices between OHS CARE and OHS CARE+ operations.
- An analysis of whether reliance on permanent metal signage contributes to gaps or inconsistencies in notifying residents of scheduled OHS operations.
- An assessment of the costs of removing permanent metal signage and the staffing needed to post paper notices and proper documentation.

I FURTHER MOVE that City Council instruct LASAN to develop recommendations to improve notification procedures.

ORIGINAL

MOTION

In the State of California, the operation of autonomous vehicles (AVs) is regulated by the State. The California Public Utilities Commission (CPUC) regulates the safety of commercial passenger services, for Transportation Network Companies (TNCs), and Autonomous Vehicles (AVs), while the Department of Motor Vehicles (DMV) regulates AV testing and other AV non-passenger related services, including how AVs are cited for moving violations, how they interact with first responders and traffic officers, and how manufacturers manage the deployment of their fleets in an emergency.

As the number of AVs and TNCs on local streets in the City grows, it is important to understand how emergency communications can be optimized to respond to crises in a timely manner, including protocols for determining when the operation of these vehicles should be limited in certain areas of the City during an emergency, storms (e.g. El Nino), unforeseen climate events, and major events, if those vehicles should be required to temporarily suspend service for a limited period of time, if vehicles should immediately disburse from an area, or if pick up and drop off locations should be relocated. The DMV's rules indicate that local authorities have the ability to issue emergency geofencing directives to AV manufacturers and require AV manufacturers to direct their fleets to leave the identified areas to limit conflicts with AVs during active emergency situations. Ridehailing services also provide the unique communication opportunity to disseminate important roadway information during an emergency to fleets of drivers who are already connected to a phone app.

I THEREFORE MOVE that the Emergency Management Department, Department of Transportation, Police Department, and Fire Department in collaboration with the City Attorney, **BE DIRECTED** to report with an overview of existing protocols for coordinating with autonomous vehicles and ride-hailing services during an emergencies, natural disasters, or large scale special events, and an outline of local authority to regulate the operations during a declared local emergency.
