Speed signs, road repairing and precautions need to made here in the Tramanto entryway to the old neighborhood of Castellmarre.
I live on Tramanto Drive, we bought a home here in 2022, moves from Boston. I've watched crime, roads falling into the side of hills, and nobody at all paying attention to speed. I have five children. I've almost been hit by a car about 12 -20 times. We are a family of seven, my husband travels for work and it's really especially hazardous right now with the construction trucks going up and down the hill. There are 250 homes to serve with one way in. This neighborhood is neglected
and should be such a beautiful entry point into the town and to Los Angeles with proper entryway , private, a gate and proper roads that work. Currently it's neglected and it's truly unsafe.
Please pay attention and help save lives by looking at the obvious unsafe conditions here.
